

## How To Show Significance Colours in Excel Exports

### Problem

You see significant results in red and blue in Q, but the colouring is lost when you export to Excel.

### Steps to solve

1. Choose **Edit | Project Options...**
2. Select the **Table Styles** tab.
3. In the **Default styles for** panel, select *Colorful* at **Export to Office** (bottom right).

### Additional reading

Terms shown in italics and bold can be found in the index of the *Q Reference Manual*, the *Q Quick Start Manual* and via the **Help** menu within Q.

### What to do if the problem is not solved

If these instructions are insufficient, please email us (**Help | Email Support...**) with a detailed description of what in the instructions is not working for you and we will either provide you with more comprehensive instructions, or, upon your request, we can do the analysis for you in your file (fees apply) .
